

Giving and Donation Projects

Alumni Annual Donation

The annual donation reflects the sense of identity, participation, cohesion, and cohesiveness of alumni to their Alma mater, as well as the love and gratitude to their Alma mater. As long as the alumni donation is sincere, the amount of the donation is irrelevant and considered a sincere expression of love. All donations will be invested into the “I Love My Alma Mater” alumni special fund, which will be used to support the development of the university and the growth and success of the students.

Student Financial Assistance Programme

Scholarship

It is one of the important missions of the university to cultivate high-quality innovative talent. The scholarships are set up to encourage students to study well, grow in an all-round way, pursue excellence, and promote all-round development of students.

Bursary

The bursary enables financially impoverished student to complete their studies without the burden of financial difficulties.

Relief Money

The relief fund is set up to cover part of the medical expenses for students suffering from serious diseases and emergencies, so that students can get assistance at the best time.

Science and Technology Innovation Fund

The fund is used to subsidize students' research and development of science and technology innovation projects, publish related books, participate in science and technology innovation competitions, etc.

Entrepreneurship and Employment Fund

The fund enables students to carry out related entrepreneurship and employment activities, participate in entrepreneurship competitions, and promote the development of entrepreneurship education in the university.

Social Practice Fund

The fund enables students to carry out various social practice activities.

Teacher Development and Construction Projects

Young Teachers Grants Incentive Fund

The fund rewards outstanding young teachers who are dedicated to their jobs. The fund encourages young teachers to be more committed to teaching and pioneering in their own academic fields by recognizing outstanding young teachers who have made outstanding achievements in teaching and academics and set a good example for teachers in terms of ethics.

Young Teachers Research and Innovation Fund

The fund enables young teachers to carry out innovative and exploratory research in the frontier of discipline development, and reward excellent scientific research achievements of young teachers.

Teachers Internationalization Training Fund

The fund enables teachers to go overseas for short or long-term study and research. The purpose is to create a team of high quality educators. The fund allows them to study, participate in international academic exchanges abroad, and publish high-level papers in authoritative international journals. The goal is to cultivate a group of internationally competitive teachers and promote the internationalization of university teaching and research.

Feature Item

The “Ten Thousand Trees” Project

The purpose is to create a beautiful campus and let students live and study in a more comfortable environment. Harbin Engineering University initiated the “Ten Thousand Trees” project, calling on the alumni to pledge or donate trees, and place tree pledge commemorative plaques under the pledged trees. All donations will be used to support the development and construction of the university.
